Regulations:

Only 1 rabbit is permitted on the course at any time.

Each rabbit may only have one 4-Her as its handler.

The handler must be the trainer.

Animal handlers are not permitted to step over hurdles or obstacles. They must go around the hurdles or obstacles.

Respect the equipment. If you break something, you are responsible for the cost to replace it.

No treats for you or your rabbit will be allowed on the hopping course.

In order to participate in Rabbit Hopping and Agility, 4-Hers are required to attend a training session to review rules and a practice for the 4Her to demonstrate their understanding and safe handling of the rabbit. Rules subject to change at the judge's discretion to ensure safety of rabbits and handlers.

Rabbits and 4-Hers may be ineligible for any of the following:

- Touching the rabbit with anything other than the 4-Hers hand.

- Lifting or pulling the rabbit by the halter or lead.

- Rough Handling of the rabbit.

- Failing to follow directions.

- Unsportsmanlike conduct.

### Class 9: Agility/Speed

This course challenges rabbits and handlers on the speed with which they can complete an agility course. Each rabbit runs the course two times. The referee will direct the handler to set the rabbit down at the start of the course. Initial time starts when handler places rabbit at start mat. Time of run begins when 2 of rabbits' feet leave the start mat. The time is stopped when the rabbit has all four feet on the ground after completing the final obstacle or hurdle. The final score is determined by the time it takes to complete the course plus any penalty points accrued during the course. The best final score for the 2 runs is counted. The agility course can contain any of the following elements: hurdles, water feature, tube, obstacles to hop through or over, ramp, or any other appropriate challenge as determined by the superintendent.

Penalties:

- \*Failure to start course within 60 seconds of being placed on course will result in a 5 second penalty. If the rabbit doesn't start the course within an additional 30 seconds, the rabbit is exempt from that round.

- \*A rabbit that waits in front of any subsequent obstacle or hurdle before attempting to clear it for more than 30 seconds will result in a 5 second penalty. If the rabbit does not successfully attempt the obstacle or hurdle, within an additional 30 seconds, the rabbit is then exempt from that round.

- \*A rabbit knocking over a crossbar on a hurdle will result in a 3 second penalty. Any crossbar knocked off by a handler is not considered a penalty, but in order for the run to count, the rabbit must have cleared the crossbar prior to its falling. The referee will determine if the rabbit and handler need to re-run the course if the crossbars were not cleared.

- \*The obstacles or hurdles must be completed in the correct order. Not completing obstacles or hurdles in the correct order will result in a 3 second penalty.

- \*The obstacles must be completed in the correct direction. It is unsafe for the rabbits to hop in the wrong direction and this will result in a 5 second penalty for the first infraction. In case of a second infraction in the same course run rabbit and handler will be ineligible to continue.

- \* Leaving the course is not a penalty provided the rabbit re-enters the course at the same location that the rabbit left. Carrying your rabbit to this point to re-enter is ok.

Awards: A: \$3; B: \$2; C: \$1

### Class 10: High Jump

This event challenges the rabbit to jump for maximum height. This event is run in rounds. There will be 2 hurdles set up. The first hurdle is a "warm-up" hurdle for the rabbit and no penalties will be incurred if this bar falls. Starting hurdle height is 2 crossbars on the hurdle, 1 additional crossbar will be added at the start of each

round to a potential maximum height of 24 inches. Rabbits are required to jump over hurdles without knocking them down. Each rabbit has up to 2 attempts to successfully clear each new height challenge dependent on course and conditions. Final score is calculated based on maximum number of crossbars successfully jumped over minus any penalty points the rabbit incurs. In the case of a tie, penalty points will be added and the rabbit with the fewest number of penalty points will win.

Penalties:

\*Failure to start course within 60 seconds of being placed on course will result in 1 penalty point. If the rabbit doesn't start the course within an additional 30 seconds, the rabbit is exempt from that round. \*If a rabbit hits a crossbar, but it does not fall down they will receive 1 penalty point. \*If it takes 2 attempts to successfully clear the hurdle, the rabbit will receive 1 penalty point.

Awards: A: \$3; B: \$2; C: \$1
