DEPARTMENT 36 Vegetables

Superintendent: Carter Brown

Tips on Vegetables

- All fruits and vegetables should be clean! Try not to damage the vegetables when cleaning them. Rinsing or wiping with a damp cloth is usually sufficient, and scrubbing should be avoided as it can damage the skin of the vegetable.
- Uniformity is another important consideration in judging a class. Many people can grow the "perfect" tomato, cucumber or carrot, but not everyone can grow the required number for an exhibit - all of them uniform and of high quality.
- Vegetables and fruits entered should be at the best maturity for use, and of a size and quality which would be desirable in the commercial trade. If there is any doubt on this, check a produce stand or supermarket to see the size and maturity the trade prefers.
- Be sure to provide the correct number of vegetables or fruits called for in the Award Book. Most of the time the judge will remove extra items, but he is not obligated to and he may not always leave behind the best specimens. If the minimum number is not entered, the entry will be disqualified.
- Root crops should be clean, with 1½" of tops left on. Root crops should not be over mature, especially Beets and Turnips.
- Cabbage should have a few wrapper leaves left on, and be medium-sized with firm heads (free from insect injury).
- Onions should not be peeled; remove just the outermost dirty layer. Onions should be dug a week or two before the Fair and cured so the tops are dry, and then trimmed leaving only 1 - 2 inches above the bulb. Clean onions of dried-on soil, but don't peel them to the point of giving a slick appearance.
- Summer Squash should be young and tender and between 6 and 10 inches in length. There will be a Giant Zucchini class, but in the regular classes of Summer Squash, over maturity will be scored down.
- Beans, Peas, and Cucumbers should be as uniform as possible and all should have a short piece of stem left attached. Entries should not be over mature, but should have developed to a proper stage for use.
- Ripe Tomatoes can be exhibited with stems on or off, but all tomatoes in the entry should be treated the same. Green Tomatoes should have stems attached. Tomatoes should be free from cracks, green

shoulders on Ripe Tomatoes, and Ripe Tomatoes should not be overripe. Green Tomatoes should be fully developed and at the same stage of maturity.

- Sweet Corn should have the husk stripped on one side only to allow for easy viewing of the kernels. Silks should be removed and the stem of the ear trimmed to just below the point where the husks are attached. Sweet Corn should be at the proper milk stage of maturity; ears should be filled to the tip and the ears should be free of insect damage.
- Entries of greens or fresh herbs should consist of either the whole plant or five stems.

Quantities to Exhibit on a Plate:

Class 1: One each of the following: Broccoli, Cabbage, Red Cabbage, Cauliflower, Celery, Lettuce, Swiss Chard (whole plant), Eggplant, Winter Squash, Pumpkin (Sugar and Field), Watermelon, Muskmelon, Spaghetti Squash.

Class 2: Two each of the following: Summer Squash, Cucumbers, Turnips, Peppers. (Do not mix on one plate red, green and yellow).

Class 3: Five each of the following: Beets, Carrots, Radishes, Parsnips, Sweet Corn, Hops, Popcorn, Rhubarb, Leeks, Scallions, Onions, Ornamental Corn, Gourds, Mini-Pumpkins, Pickling Cucumbers, Potatoes, Ripe Tomatoes, Green Tomatoes (Note: Ripe Tomatoes and Green Tomatoes will be judged as separate vegetables. Example: 5 Green Big Boy is one entry, 5 Ripe Big Boy is another entry. Do not mix. Ripe and Green on one plate; they will be disqualified.)

Class 4: Ten of the following: Lima, Shell, String Beans (green, yellow, or purple), Brussel Sprouts, Peas, Cherry Tomatoes.

Class 5: One-half Pint container of dry beans or shelled peas, labeled with date harvested (must have been harvested during current, or previous year's growing season).

The boat must be set back if it has moved more than 1 foot in one or more tries. It may be set back, at the request of the driver, if it has moved less than one foot in one or more tries. All of the rear wheels must remain on slab for the full distance of pull. Tractor may pass one hitch if not ready or repairs being made. Pulling order will be random draw prior to class. One helper will be allowed on the slab only to help move weights.

Weight: Tractor must be weighed for each class it enters. Tires may be loaded. All added weight must be securely attached to wheels or frame. Added weight bracket(s) may be used, but must be bolted to the tractor in a secure manner. No added weight to extend beyond the rear wheels or interfere with hitching. Weight not to exceed 24 inches forward of the front most portion of the tractor. If any added weight is lost off the tractor while hitched to the sled, that hitch will be disqualified. If your weights extend above your rear tires, you must use a functional wheelie-bar. Every tractor must provide its own clevis. It must be a standard unmodified clevis with a minimum 34 inch pin. ALL decisions of the judges will be final; safety and modifications included.

Notes: It is recommended that each tractor have one 2 ½ lb. ABC Fire Extinguisher mounted. It is also suggested that stabilizer bars or wheelie bars be used. Slight modifications of rules may be made upon request of fair or pull officials in the event of conflict or local pad or boat conditions upon approval of pull committee.

DEPARTMENT 50 Lawn Tractor Pulling

Sugar Hill Snubbers Lawn Tractor Pulling Information

The Sugar Hill Snubbers run 4 classes, ranging from Stock to Open.

Rules:

All tractors must run wheelie bars (per Sugar Hill Snubbers specs) and have solid mount hitch point set no higher than 12" high. All motors are to be stock, and can run without mufflers. Also, except for the stock class, the governors may be unhooked.

For more information, call Dickie Pearson at 603-783-4427 or Ricky Hippler at 603-529-1573. Or you may visit the interactive website at www.snubbers.yuku.com.

1st Class: 8" Super Stock: These tractors use 8" wheels and can run up to 18 hp Briggs and Stratton motors. With special cut turf tires up to 18x8x9.50" and a relatively low weight of 750 lbs (including ddrive), this is an exciting class to run and watch.
