- Failing to follow directions.
- Unsportsmanlike conduct.

Class 9: Agility/Speed

Awards: A: \$3; B: \$2; C: \$1

This course challenges rabbits and handlers on the speed with which they can complete an agility course. Each rabbit runs the course two times. The referee will direct the handler to set the rabbit down at the start of the course. Initial time starts when handler places rabbit at start mat. Time of run begins when 2 of rabbits' feet leave the start mat. The time is stopped when the rabbit has all four feet on the ground after completing the final obstacle or hurdle. The final score is determined by the time it takes to complete the course plus any penalty points accrued during the course. The best final score for the 2 runs is counted. The agility course can contain any of the following elements: hurdles, water feature, tube, obstacles to hop through or over, ramp, or any other appropriate challenge as determined by the superintendent.

Penalties:

*A rabbit knocking over a crossbar on a hurdle will result in a 3 second penalty. Any crossbar knocked off by a handler is not considered a penalty, but in order for the run to count, the rabbit must have cleared the crossbar prior to its falling. The referee will determine if the rabbit and handler need to re-run the course if the crossbars were not cleared.

*The obstacles or hurdles must be completed in the correct order. Not completing obstacles or hurdles in the correct order will result in a 3 second penalty.

* Leaving the course is not a penalty provided the rabbit re-enters the course at the same location that the rabbit left. Carrying your rabbit to this point to re-enter is ok.

* The rabbit must complete the course within 2 minutes. If the rabbit goes over 2 minutes then the rabbit is exempt from that round.

Class 10: High Jump

Awards: A: \$3; B: \$2; C: \$1

This event challenges the rabbit to jump for maximum height. This event is run in rounds. There will be 2 hurdles set up. The first hurdle is a "warm-up" hurdle for the rabbit and no penalties will be incurred if this bar falls. Starting hurdle height is 2 crossbars on the hurdle, 1 additional crossbar will be added at the start of each round to a potential maximum height of 24 inches. Rabbits are required to jump over hurdles without knocking them down. Each rabbit has up to 2 attempts to successfully clear each new height challenge dependent on course and conditions. Final score is calculated based on maximum number of crossbars successfully jumped over minus any penalty points the rabbit incurs. In the case of a tie, penalty points will be added and the rabbit with the fewest number of penalty points will win.

Penalties:

* If a rabbit hits a crossbar, but it does not fall down the it will receive 1 penalty point.

* If it takes 2 rounds (attempts) to successfully clear the hurdle, the rabbit will receive 1 penalty point.

* Failure to complete the course within 90 seconds will result in the rabbit being exempt from that round.
